"Your Safety – Our Priority"

"Your Success – Our Dream"

"INTRODUCTION"

- An ISO - 9001 QMS, 45001 OHSMS, 14001 EMS Certified Consultancy.
- We comply with the requirements of local legislation (Government of Gujarat / India, BIS), ISO standards including EMS 14001, QMS 9001, OSHMS 45001, and IMCA.
- Shivansh OHSE&Q Consultancy _ we are (Govt. Approved) DISH authorized training provider.
- Shivansh OHSE&Q Consultancy (Govt. Approved)_ FIRE – SAFETY + NOC _ we provide all types of FIRE SAFETY servicing including fire audit, AMC, supplying of Material, installation of complete fire fighting (Fire Pump + Fire Panel + Hydrant System + Sprinkler System + Co2 Base) with auto fire detection + fire Alarm system as per requirements.
- Shivansh OHSE&Q Consultancy _ FIRE – SAFETY + NOC _we prepare all types of documents related fire safety requirement as per various legal requirements & statutory obligation under Gujarat Factory - 1948, Factory Rules - 1963, NBC code 2016 part IV various Indian standards pertaining to fire safety.
- We provide all types of personal protective equipment with appropriate mark on it as per rules ex. CE, ISI, EN etc.
- We have done many Fire Safety Project in Government firm, Private and Industrial Project (Obtain NOC for them).
- GeM Seller Id - 7TR7200001891584

COMMITMENT

Shivansh OHSE&Q Consultancy _ is assigned with the business of providing all types of fire safety services, trainings, internal or external audits, expert advice on all HSE related matters including its documentations etc. The long-term business success of SHIVANSH OHSEQ depends on our ability to continually improvement in the quality of our services and products while protecting people, Property and an Environment as well.

"VISION"

To be first choice company for all types of industries, to grow and continuously improve as an integrated company, committed to satisfying our customers' needs and inspiring our employees.

We are quality focused organization providing comprehensive services to the all types of Industries.

MISSION

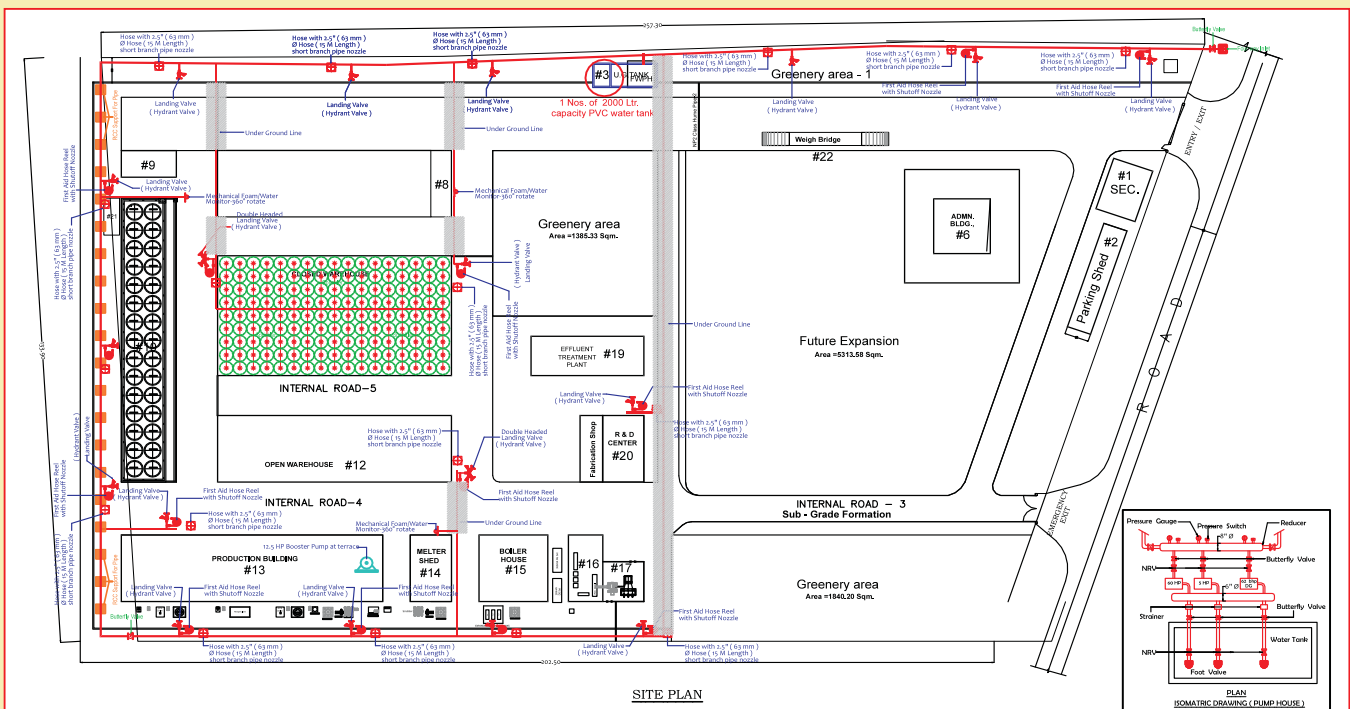

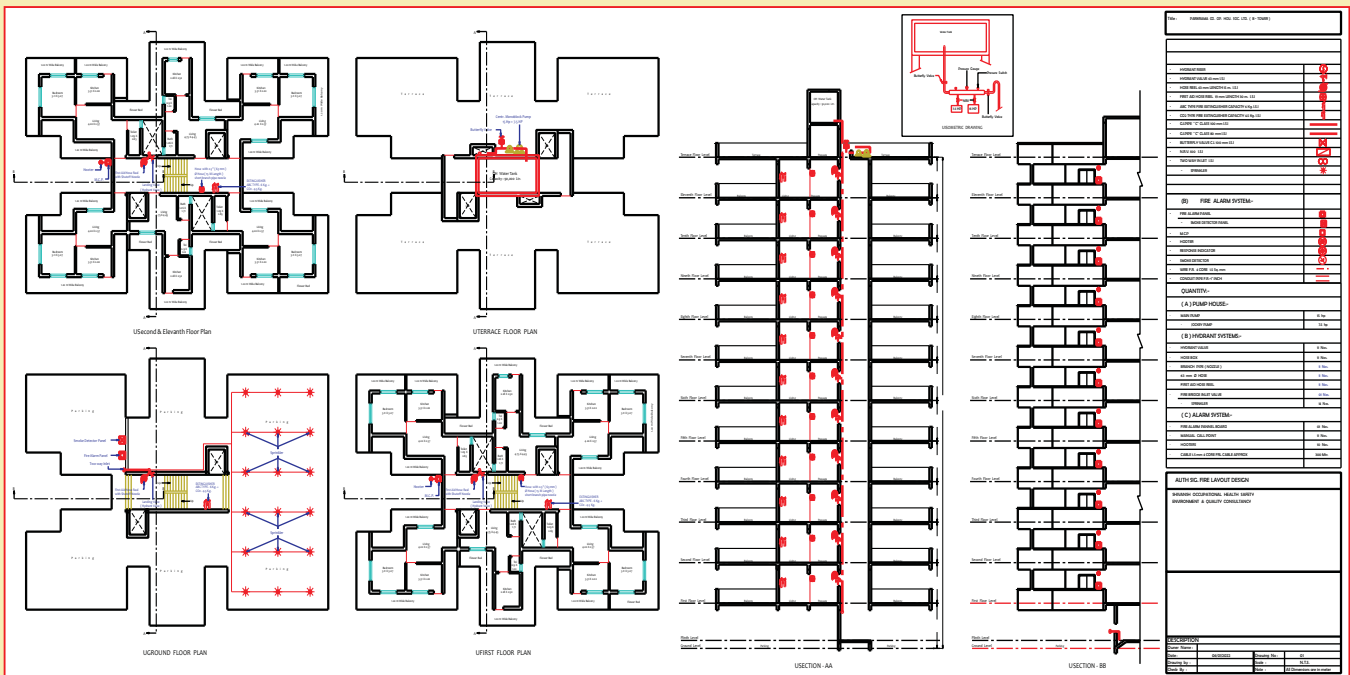

Shivansh OHSE&Q Consultancy is a all over the India and worldwide service provider dedicated to building long-term relationships with Client, Customers, Staff and suppliers. We are committed to delivering integrated services.

" FIRE SAFETY DOCUMENTATION "

FPCOR_ LICENCE NO - FES/FPCOR/59

- FIRE SAFETY AUDIT REPORT
- FIRE ADEQUACY REPORT AS PER RULE GFR (RULE 66 & 66A) FACTORY ACT - 1948 & FACTORY RULES - 1963
- EMERGENCY RESPONSE PLAN (ON SIDE / OFF SIDE)
- EMERGENCY EVACUATION PLAN
- COMPLETE FIRE HYDRANT SYSTEM DESIGN & ENGINEERING DRAWING
- ALL DOCUMENTS REQUIRED TO OBTAIN FIRE NOC
- EMERGENCY EVACUATION LAYOUT
- EMERGENCY DRILL
- FIRE SAFETY CERTIFICATE

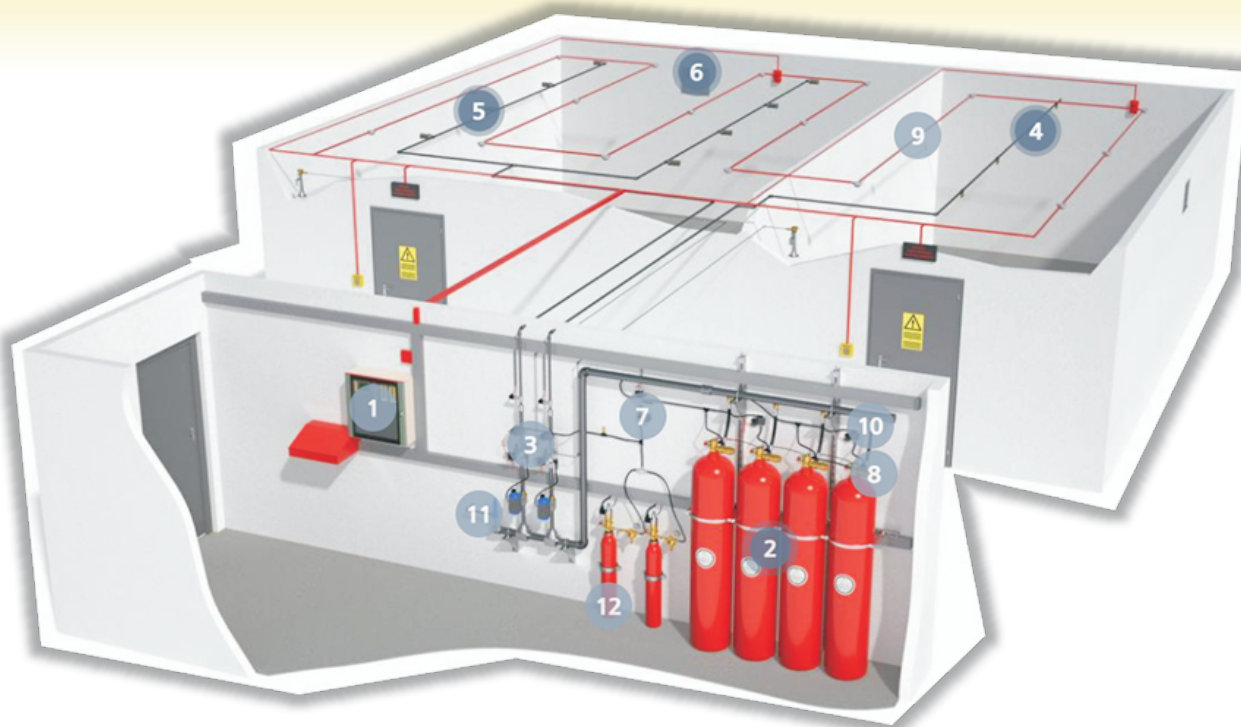

"ENGINEERING DRAWING FOR FIRE FIGHTING SYSTEM"

SITE PLAN

Co2 Automatic Room Flooding System

DESCRIPTION

High pressure CO₂ system is a specialized fire extinguishing system designed to maintain the carbon dioxide supply at 21° C and 850 psig in strength alloy steel cylinders. The cylinders contain the CO₂ required to protect the largest single hazard. On large hazards where several cylinders are required, a manifold is used to connect each cylinder by means of flexible hoses and check valves. Cylinder valves control the CO₂ flow to the hazard through properly sized pipe, terminating in nozzles that apply the CO₂. Flow rate is controlled by nozzle orifices as well as pipe sizes. The cylinder master valves are electronically operated and the slave valves are pressure actuated. The master valves can be automatically and/or manually operated.

FEATURES & COMPONENTS

Co₂ Cylinder, Master Valve, Slave Valve, Flexible Discharge Hose, Flexible Inter Connecting Hose, Non Return Valve, Directional Valve, Bleeder Valve, Pressure Switch, Solenoid Valve, Digital Weight Loss Indicator, Cylinder Mounting Frame, Manifold, Pressure Operated Siren, 180, 360° Discharge Nozzle, Weight Loss Indicator, Displays Actual Weight of Cylinder, Displays WEIGHT LOSS and Audio Visual Alarm Sound on Loss of Weight more than 10% (or required by relevant standards) of gas contents, Electronics and environment-friendly, Superior Extinguishing agent: HFC227ea, 24 hour protection.

MECHANICAL WEIGHT LOSS INDICATOR

- Green light remains on indicating full weight On weight loss of more than 10% (or as required relevant standards) pf gas contents the balancing weight shall drop down Triggering Auto Visual Alarm. The Red light turns on indicating loss of weight

SYSTEM APPROVED BY: CE, UL & PESO ETC.

Clean Agent Automatic Room Flooding System

Description

The causes of fire are many and therefore the classification of fires (A/B/C/D/K) is important. That's why fire protection specialists must select the appropriate fire-extinguishing system for suppressing a fire particularly in complex commercial and institutional setups where the use of water is inappropriate, or even dangerous. Latest range of Gas-based Fire Suppression Systems - also known as Clean Agent Fire Suppression Systems - chemical agents to extinguish fires immediately. Each system typically consists of the agent along with agent storage containers, release valves, delivery piping and dispersion nozzles. Backed by legendary reputation in the area of fire safety equipment, these Fire Suppression Systems guarantee top-of-the-line quality and adherence to Indian fire safety regulations when it matters most.

FEATURES:

All Clean Agent Cylinder is master valve cylinder & slave valve cylinder & flexible discharge hose & Flexible inter connecting hose & Non Return Valve & Stand by cylinder & Directional Valve & Pressure Loss Indicator & Cylinder Mounting Frame & Discharge Nozzle 360°/180°

ENVIRONMENT FRIENDLY

Most materials such as steel, aluminium, stainless steel, brass, as well as plastics, rubber and electronic components are not affected by exposure to Novec 1230/FK-5-1-12, Fm 200/HFC227ea. This agent is also environmentally friendly, having an ozone depletion potential (ODP) of 0.00.

Minimum Downtime

Novec 1230/FK-5-1-12, Fm 200/HFC227ea leaves no residue thereby minimizing after fire clean up, along with keeping expensive downtime to a minimum.

SYSTEM APPROVED BY: CE, UL & PESO ETC.

OUR CLIENTS

SHIVANSH OHSE&Q CONSULTANCY

We are committed to work proactively with our clients, customers, suppliers, external bodies and any other third parties to achieve their goal and target.

We provide below services as part of our consultancy scope of works.

- We comply with the requirements of local legislation (Government of Gujarat / India, Factory act 1948 & Factory Rules 1963, IS, BIS), ISO standards including EMS 14001, QMS 9001, OHSMS 45001, and IMCA. WE ensure the effectiveness of Occupational Health, Safety, Environment, and quality Management Systems.
- We provide all type of fire safety equipment's, its installation, servicing (fire extinguisher refilling), and maintenance (AMC) as per requirements. Also, we prepare engineering drawings for complete fire fighting system for entire facilities. We help to conduct emergency drills for school/organization as per local legislation.
- We conduct external and internal audit for reputed organization to ensure that the organization is complying with local legislation, company rules and regulation and ISO standards including 45001 – Occupational health and safety Management system, 90001 Quality management system and 14001 environment management system. Apart from this we provide leadership to manage external audits of EMS 14001, QMS 9001 and OSHAS 45001 which is conduct by 3rd party for renewal of ISO certificates.
- We conduct internal and external job specific trainings for EPC projects, Oil & Gas, Chemical/Petrochemicals, Marine & Ship repairing, Sub Sea diving, Power plant industries. We educate, train and motivate employees to carry out their activities in a responsible manner in accordance with the requirements of OHSE&Q management system and all relevant legislation.
- We provide expert advice on all OHSE&Q related matters and support to company and project management team by ensuring the effectively implementation of OHSE&Q Management system to achieve company goal.
- We are dealing with local authorities for compliance of their requirements (code of practices).
- We prepare OHSE&Q documents such as HSE plan, Emergency rescue/response plan, Quality plan, Risk Assessment (JSA & HIRA) and HAZID for various projects based on approved scope of work according to client requirement and local legislation.
- We carry out installation, maintenance / servicing and inspection of the machineries, heavy equipment's, power / hydraulic tools and equipment's, its PAT testing, inside the reputed organization to ensure the compliance of company code of practice. Apart from this we shall carry out installation of fire fighting system, servicing / maintenance of fire fighting system and fire extinguishers.
- We provide expert advice on carry out internal or external incident / accident investigation.
- Strive to prevent the occurrence of accidents or exposures which could cause harm, or damage, to individuals or the environment and maintain emergency plans in order to minimize such risks and consequent adverse effects.

Kindly feel free to contact us for further details and query.

NOTE: - All services will be provided with reasonable price.
